During the dedicated days, young judges will have the opportunity to watch online and stream feature films from all over the world, which will be divided into four categories according to the age of the audience.

The teenagers, who have always been the festival's judges, will evaluate the feature films based on the skills acquired during the training course that the vvfilmf provides. The festival will open with a meeting with the president of the quality jury to prepare the teenagers for watching the films.

Afterwards, there will be online meetings with the protagonists and authors of each film to be attended by the directors, producers and actors.

Direct contact with them is the greatest value for the vvfilmf, so as to bring the big names of cinema closer to the children.

For the juries, it is compulsory to watch the films and participate in online meetings during all days of the festival.

On the last day of the vvfilmf 2024, there will be a film awards ceremony attended by the guests of vvfilmf 14. The entire jury is invited to participate, online or in-presence, as well as the winning filmmakers. In-person participation will change according to the security regulations announced by the government.
